Clerk and Master Records Retention Schedule

Reference Number: CTAS-2053

Clerk and Master Records. The records included in this schedule are those for the office of the clerk and master. Many of the materials in this schedule will also be important to county clerks that serve as clerks for probate court. They are divided into different sections based on the types of records. Records that may be kept in the same format by several county offices (such as employment records, purchasing records, etc.) will be found listed under topical retention schedules in this manual. Included in this table is a listing of “obsolete” records. Your office should no longer be generating these records. They are still included in the disposition schedule so that anyone discovering those materials in older records of the office will know how to deal with them. To a certain extent, the records kept by county offices vary from county to county in either the format of record kept, the name given to the record or the frequency of its occurrence. This is particularly true of court records which may vary according to local rule and practice and especially confusing concerning the varying forms of docket books that courts may have utilized over the years. The fact that a certain record is listed in this schedule does not necessarily indicate that you should have it in your office. It may be a format for record-keeping that was never utilized in your county, or you may keep the record under a different name. If you have records in your office that are not listed in this schedule by name, check the descriptions of the records to see if we may have called it by a different term. If you still cannot locate any entry relative to the record, contact us at the County Technical Assistance Service for guidance in determining the proper disposition of the record and so that we can make note of that record’s existence to include it in future revisions of this manual.
